VOL. IV. RALEIGH, N. C., WEDNESDAY EVENING, MAY 12, 1869. NO. 230

The Daily Sentinel.

JOSIAH TURNER, Jr., EDITOR.

RADICAL ADMISSIONS AS TO THE CARPET-BAGGERS.

Even *Harper's Weekly*, which, for years past, has hardly seemed able to find epithets strong and violent enough to gratify its wrath in speaking of the unreasonable mass of the South and the too great indulgence and mercy extended to that section does not scruple to say:

One wonders that the South does not rebel anew, when he considers the miserable vermin who have been sent down there as government officials.

The language is correctly chosen. The "miserable vermin have been sent down as government officials." They have been "sent" under the auspices of the Freedmen's bureau, "sent" as "officials" and harbored as such ever since. The Harpers wonder that the people of the South "don't rebel anew," against "the miserable vermin," but brave men may ruefully submit to a considerable amount of crawling and biting in their heads rather than provoke impatient and thirsty bayonets pointed within an inch of their throats.

Mr. Medill, editor of the Chicago *Tribune*, who has been one of the most unscrupulous and remorseless of the denouncers of the people of the South, and who has seemed to think that the carpet baggers were all that could or should save the South from the fate of Sodom and Gomorrah, has just made a tour through that section, and he writes thus to his own paper:

"The people of the South have been fearfully punished for their crime against the Union. The hardest heart could not wish them more punishment than they have suffered. They have been torn and bruised, battered and burned, slaughtered and lacerated, impoverished, humiliated, and, lastly, ridden and robbed by carpet-baggers. They philosophically endure all the other stings of "outrageous fortune," except the carpet-baggers—the strolling, pilfering, political back-legs of the North, whom they cannot bear, and they cry for exemption from this affliction. But this evil is of temporary duration, and is one of the gifts and legacies of Andy Johnsonism.

The Chicago editor describes correctly the character of the carpet baggers and the intolerable curse of their presence among the people of the South, but, when he speaks of that curse as "one of the gifts and legacies of Andy Johnsonism," he is evidently trying to make amends to his party for the utterance of a truth disgraceful to it by the utterance of a falsehood disgraceful to himself. He knows that the presence of the carpet-baggers in the South was no gift or legacy of President Johnson or of President Johnson's friends. The carpet baggers as we have said, went to the South because sent in official capacities by the Bureau and because they learned, that, by going there, they they could secure for themselves all the offices, honors, and emoluments to be had in that section. They have swept everything in the South, but not with the aid of even a single man of the Democracy. To their own votes and to the votes of the negroes are indebted exclusively for their domination and their spoils. Were the carpet-baggers in Congress and the carpet baggers in the Southern Legislatures and the carpet-baggers in thousands of offices of every description in the South—were all or any of these elected by the help or with the consent or the connivance of *the Democracy?* Why insult truth and common sense by calling Southern carpet-baggism "one of the gifts and legacies of Andy Johnsonism?" What can a Radical editor hope to accomplish by such things?—*Louisville Courier-Journal.*

THE COTTON TRADE.

The cotton trade on both sides of the Atlantic continues in an anomalous condition. Stocks are everywhere, running low, with no prospect of replenishment till another crop shall be ready for market, as a progressive decrease of receipts at our own ports, while the Indian supplies promise to fall materially below those of last year, and the minor sources of Egypt, Brazil, &c., afford on a bare average quantity. Although prices are about three cents per pound below the highest point of the season, the staple is still much higher, relatively than goods, many kinds of which are quite as low as before the war, on a gold valuation. With no abatement in the cost of producing goods, it follows that manufactures must be working without profit, if, indeed, they are not losing money. In the manufacturing districts of England a good many failures have lately occurred, and the rate of consumption is fully ten thousand bales below what it was in January. Under a normal condition of trade the price of cotton could hardly fail to materially appreciate, as spinners are rarely ever so bare of supplies, but as the case now stands, they find it almost impossible to get back a new dollar for an old one, and hence they are reduced to the necessity of the most rigid economy, in order to make ends meet.

The high price of cotton during the past six months have stimulated the planting interest South, and no doubt as large a breadth of land will be seeded as can be afforded under the necessity of an increased devotion to food crops. In view of the many difficulties which surround cotton culture, the leading Southern journals are giving the farmers and planters practical advice not to place all their trust in the great staple. There is an abundance of land in the South to raise an abundance of food for home consumption, and cotton enough to supply the world, but unfortunately, there is an inadequate supply of the right kind of labor. Still, competent Southern authorities are of opinion that, with an ordinarily favorable season, the next crop will not unlikely reach 3,000,000 bales, and may go to 3,250,000 bales.—Southern opinion with regard to free labor, too, has been very sensibly modified of late.

RUMORED DEPARTURE OF A CUBAN EXPEDITION FROM FLORIDA.—*Key West Fla., May 6.*—The British steamer Salvador sailed last night crowded with Cuban sympathizers. She cleared for St. Thomas by the way of Nassau, it is rumored, in connection with some Cuban expedition fitting out in one of the Gulf ports.

Colonel E. D. Ludington, Assistant Inspector General, will report to Major General George H. Thomas, and accompany that officer to his new command, the Military Division of the Pacific.

It is noteworthy, in this connection, as a merited tribute to the excellent Company (Brooklyn Life,) which has so gallantly raised the standard of reform in Life Insurance, that we find in the whole list of existing Companies, few competitors which deserve so much credit in respect of economy of management, or care, skill and judgment in the selection of risks."—INS. "THE IMPERIALIST."

We received, by yesterday's mail, No. 5 of this paper, which is exciting considerable attention, and in some quarters no little fear. We have examined the number before us, and, although we have met with statements we are compelled to receive as true, for they are iterated and re iterated almost daily in Democratic and Republican papers, we have not been very highly impressed with the earnestness, plausibility or vigor of the issue of last Saturday. But it is not to be denied that this paper is highly dangerous. It is published at a time when the great national arteries have been fully and fearfully corrupted, and, therefore, it meets with an attention which could never have accompanied it at any former period of our history as a people. Papers of every hue of opinion, papers North and papers South, are writing in one common onslaught upon the tremendous tide of peculation and fraud and venality that is fairly deluging this grand and once prosperous nation. The *Imperialist* then meets the crisis when the tide is full, and adroitly insinuates its revolutionary doctrines into the popular heart. It is doubtless true that thousands are being converted to its tenets; but simply because they believe the country completely ruined and a republican form of government a failure. We have several times pointed out the danger of abandoning for one moment the great benefaction bestowed upon us by the Constitution framed by our forefathers. We expect to recur to this subject again.

Some may think that by deserting a democratic system and embracing as true the teachings of the *Imperialist* that our troubles will end, and political safety be guaranteed. A more stupendous fallacy was never presented to the human mind.—The history of modern civilization contradicts flatly this assumption. We showed the other day how the novel and grand principles incorporated into the Federal Constitution had impressed themselves upon British laws. Whilst we are to-day gradually becoming familiarised with ideas which belong to the Empire, the principles of our form of government have influenced European nations and permeated and ramified all of their ideas.

It will not do to go out of republicanism into monarchical or imperialistic systems for the purpose of rectifying error, vindicating right or achieving peace and prosperity. Some of the wisest, most sagacious men of the South in 1860 and 1861, were persuaded that the true policy consisted in remaining in the Union and fighting against our oppressors and enemies. We finally adopted a different policy and lo! the result. Some of the States have not got back yet, and all are poorer, wiser, and sadder.—It will be so with that grand *ignis fatuus* with which this Imperialistic enchanter is endeavoring to delude and allure the various classes of people who compose our government. Let all beware. If we have bad, wicked, ambitious men to rule us, we cannot escape trouble and distress. The people are always sufferers from the errors of their rulers. Horace, the most quotable of all Latin poets, so well understood this truth, that in his own way, he stated it over two thousand years ago: *Quidquid delirant reges, plectuntur Achivi.* Whatever error their Kings may commit, the Greeks are punished. A sad, sad truth, so take heed how in escaping from Republican corruption and baseness you run into the quagmire of despotism or anarchy. But let us give a few passages from the number of the *Imperialist* before us. First then, as to its purposes and principles as avowed openly in this number. From its prospectus we quote the following:

"Holding as we do that the grave evils of our present system, which men of all parties fairly and openly recognize, can only be remedied by a thorough and Radical change, we propose to plainly and openly urge upon our fellow-citizens the prompt adoption of such measures as to us seem wise and efficient.

We look forward to the establishment of an Imperial central executive, based upon such free institutions as shall restore to us, as a people, the peace, the prosperity, and the genuine personal liberty which we have lost."

We next copy a couple of paragraphs from its leader on the "Features of Empire." It says:

"Imperialism, as we anticipate it, must be a growth, developed through long and careful discussion, unless, indeed, the hour should itself bring the man, and some bold and overmastering genius appear to solve by his own individual power the problem which troubles the nation.

Such an Imperialism would involve a strong central Executive, based upon the general will and consent of the people, but too firmly placed to be at the mercy of such periodical fluctuations of popular feeling as at present give to our national councils their proverbial character for weakness, inconsistency, and vacillation. Such a central Executive could only be hereditary in a line of men in which imperial strength was itself hereditary. We should at least be spared the quadrennial revolutions which have now become such disastrously disturbing causes, and which are assuming more and more dangerous features with each successive repetition of the electoral fraud."

Here is one truth amid the mass of specious arguments employed to beguile the unwary to the embrace of Imperialism—an embrace that would squeeze out the very life from all national prosperity and peace. It says:

"At present the caucus politicians alone are permitted to have any perceptible influence upon public affairs, and the national Executive itself, so called, is almost entirely at their mercy."

The T. C. I. O. is the political society—a sort of Imperialist League that has been formed, and, if this paper is to be believed, is rapidly growing. Here are its character and plans as exhibited by its organ:

"The T. C. I. O. is a secret, political and social order. Its object and purpose is to secure the establishment of a strong central government in the United States that shall secure peace and prosperity to the country, protect the rights of our national creditors, and reorganize society on a basis that shall admit of no equality but that of equal responsibility to and protection under the law. It is not an armed military organization, nor are its members pledged to anything which the constitution of the present government defines as treason. It contemplates no revolution other than that which can be accomplished through the pressure of powerful moral influences. It, however, the control of our national affairs should suddenly pass from the hands of the many, and one strong-minded, intelligent man should declare himself "the government," the revolution would have been accomplished, and the T. C. I. O. would owe no other allegiance than that demanded by the crown. Further than this we can make no disclosures, even though the motives of our correspondents were fully known to us, and their faith assured to us by something more substantial than a promise."

If our liberties are ever taken from us it will be through the evil machinations and influence of secret political societies. Every American who loves his country ought to avoid them as he would a house of pestilence.

We give one significant passage from a reply to a correspondent from Arkansas:

"The only 'revolutionary treaties' known to the T. I. O. are those signed and ratified between the several Provinces already organized, which impose no conditions incompatible with a strict observance of all existing laws, both State and national, and an honest loyalty to the present Government during the period of its continuance."

There are words of cheer published that are sent from many States. Among them we find a letter from Greensboro'. We do not doubt that in every community there are secret friends of this new movement to ruin. The *Imperialist* boasts that its circulation is increasing, and says that its publication will not cease until the ends for which it was commenced have been accomplished.

We hope our people will inform themselves of the designs of all secret, oath-bound political organizations. Wherever and whenever formed, their designs are sinister, and their influence baleful. We repeat, in conclusion, that we believe leading Radicals are at the bottom of this new, dangerous movement, and that the plethoric bond holders of the North are determined to have the public debt paid, although to secure this desired end they overturn the government and throw our nation into the fatal arms of the "cloven-footed satyr of despotism." This paper says:

"We are in favor of the preservation of the national honor, as pledged for the payment of the public indebtedness."

This is the bond holders plank in the Imperialistic platform. They no doubt own this paper, and may yet by the free use of money create a party that will be strong in numbers and influential in deciding the fate of our institutions.

ERRORS.

In the conduct of a daily paper the occurrence of errors cannot well be avoided. Even in the most scholarly of our literary weeklies, and in the ablest of our dailies a close reader will sometimes detect errors, some of them glaring. In the *Round Table* we once discovered two grammatical blunders in one column. In the New York *Tribune* they occur—one recently. In the leading paper in Washington ungrammaticisms have been noticed. In the best London papers they occur often. Dean Alford, one of the first scholars of England, and one of the best Biblical commentators of this or any age, has pointed out several errors in his admirable book, "The Queen's English," that he met with in London journals. And, by the way, this able critic has been in turn criticized, and Mr. Moon, in "The Dean's English," has replied to him, and endeavored to puncture some of his positions. If we had written "twice two *is* four," or "it is *him*," all American scholars would have condemned us *instanter* but this is what the Dean not only writes, but defends most acutely. If Thomas De Quincey, John Milton and William Shakspeare be excepted, we doubt not a dozen or more grammatical errors may be detected in any published volume from the pen of any English author. So if in the hurry of daily journalism when pressed often by multifarious office-duties demanding our immediate attention, we should trip in our English, we would neither be astonished nor greatly exercised. Perhaps we would be as quick to detect the error as any one when deliberately criticising the performance afterwards. We yesterday, in our article on the "Memorial Ceremonies," did not write every sentence as we would have done if time had been at our disposal. In one place we omitted "*that*," but as no one has yet charged us with the omission, we will not specify the sentence. We have made the above remarks not to excuse ignorance or carelessness, but to show that errors abound more or less in all human composition.

GEORGE PEABODY, ESQ.—This gentleman has written to the town of Georgetown, Mass., stating that it is his intention to supply all the funds needed to sustain the public library which he has given to the town, and also presenting $4,000 towards the permanent fund. In this connection we mention with regret that letters have been received at Washington, which state that the health of Mr. Peabody, who is now in London, is not good, and that he is anxious to return to his home in America, and end here his days.

The British Royal College of Physicians has published a nomenclature of diseases—a work which has been in hand for more than ten years. To each English name of a disease they have supplied on the opposite page the corresponding Latin designation, and the equivalent terms in the French, the German, and the Italian languages.

The last Spanish loan of $50,000,000 has been contracted for at a discount that will give the Treasury only $15,000,000.

THE WAR FEVER.

We are unwilling to believe that the reflecting people of any section of our Union will favor war if the matter is left with them. Men who expect to dodge all perils and to make money out of the troublous times may be ready to plunge the country into war and to bring the most direful calamities upon the people, but the prudent, considerate and reliable portion of the North and the South, will oppose a foreign war. The sad and bitter experiences of our own domestic troubles would deter all considerate persons from advocating a war with any power. In the South nearly every household was bereaved, and many hearth-stones were made desolate, forever. In the North, thousands of parents mourned for sons who had been slain in battle, or who had died from disease.—Surely with these bitter memories fresh and vivid still, none of the survivors will agree to be led willingly into war so soon by some Hotspur with an ill-regulated brain, or by a horde of speculators willing to grow rich out of other peoples misfortunes. "Let us have peace"—peace among ourselves, and peace with all foreign powers!

HANDSOMELY SAID.—In a brief editorial in the Wilmington *Journal* upon the "Memorial Ceremonies" in that city on the 10th inst., the following fine passage occurs:

"The cause for which they fought and fell lives only in history; the gleaming star cross that lit a hundred fields, and which they loved and followed even into the jaws of death, is furled forever. The soldiery of the South have broken ranks and grounded arms, and their only camps are in our cemeteries and upon the battle-fields which dot our broad land from Pennsylvania to Texas. Here they are bivouacked and here they will slumber till the trump of the Archangel shall summon them to the Grand Review, where, let us hope, they will pass muster and be entered upon the rolls of the Great Captain.

"On Fame's eternal camping ground
There silent tents are spread,
And glory guards with solemn sound
The bivouac of the dead."

THE COTTON TAX.

On page 2 of the "Acts and Resolutions of the United States" passed at the Second Session of the Fortieth Congress is the following:

"AN ACT to provide for the exemption of Cotton from internal tax."

"*Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled*, That all cotton grown in the United States after the year eighteen hundred and sixty-seven shall be exempt from internal tax, and cotton imported from foreign countries on and after November the first, eighteen hundred and sixty-eight, shall be exempt from duty.—Approved Feburary 3, 1868."

So the Cotton tax *has been* removed.

For the Sentinel.

WILKESBORO', N. C., May 6, 1869.

Mr. Turner:—I send you, herewith, a copy, *verbatim et literatim*, of the most wonderful document that has appeared in the English tongue for many centuries. The original is now in the hands of the Sheriff of Wilkes county, and I have reliable information that similar documents are in the hands of the Sheriff of Alexander county and of other counties in the State. There has been no time since the revolution of 1688 that the promulgation of such a paper in England would not have cost any English Monarch his crown. But alas! our people have become so stupefied by continual and outrageous oppression that nothing can arouse them, and even this the most outrageous of all acts hitherto perpetrated, will be met by them with stolid indifference. But was not Heaven still in reserve, Some thunderbolt, red with uncommon wrath, to smite the wretch that builds but greatness on his country's ruin.

WILKES.

STATE OF NORTH CAROLINA,
EXECUTIVE DEPARTMENT.

To the Sheriff of Wilkes county, greeting:

WHEREAS, It has been made to appear to the satisfaction of the Executive, that executions have been issued, and are now being, or have been, levied against the following parties, for misdemeanors alleged to have been committed upon certain persons during the rebellion. *And, whereas*, it further appears from examination that they are proper cases for Executive clemency. Now, therefore, you are hereby commanded to refrain from the collection of all costs incurred by the following parties in the cases alluded to, viz: Eli. Brewer, Henry Hendrix, John Johnson. And you are further commanded to refund all monies that may have been collected on account of the cost aforesaid.

In witness, whereof, our Governor and (L. S.) commander-in-chief, hath signed these presents, and caused the great seal of the State to be attached thereto. Done at this our city of Raleigh, this the 30th day of January, A. D. one thousand eight hundred and sixty-nine, and in the ninety-third year of our independence.

W. W. HOLDEN,
Governor.

By the Governor:
ROBERT M. DOUGLAS,
Private Secretary.

Gen. Lee evidently needs more reconstruction. He is not yet quite up to the spirit of the times. He steadily refused, while in Washington, to admit newspaper correspondents to "interviews," at which they expected to report his sentiments on things in general, as developed in private conversation. As a necessary result, in order to keep up their reputation for enterprise, the correspondents invented "interviews," and of course represented the General's sentiments as they pleased. These conversations of newspaper correspondents with public men are becoming unmitigaged nuisances.—*N. Y. Times.*

ELECTIONS IN INDIANA.—The result of the city elections in this State on Tuesday last gives healthy evidence that a reaction a going on in the public mind. The Democrats carry Lafayette, Terre Haute, Fort Wayne, Logansport, Michigan City, Madison, New Albany, and Jeffersonville. The result in Lafayette and Terre Haute is a great triumph, and the victory in each place is most decided.—*Indianapolis Telegram.*

The New York *Times* of Saturday says: A report was current last evening that Colonel James Kerrigan was about raising a regiment, one thousand strong, to join in the Cuban revolution, and that the drilling was taking place in the upper part of Broadway.

Ex-President Andrew Johnson is expected in Washington in a few days.

General Terrell has accepted the position of Third Assistant Postmaster General, but will not enter upon the duties of the office before the 1st of June.

AN ACT TO REQUIRE THE REGISTRATION OF DEEDS.

WHEREAS, Creditors and purchasers are often hindered and defrauded of their lawful actions, debts and purchases, by reason of the failure of the grantee or bargainee of lands to register their deeds of convenance, powers of attorney, &c.; therefore

SECTION 1. *The General Assembly of North Carolina do enact*, That all grants of lands in the State, all deeds of conveyance, all powers of attorney, and every other instrument in writing which is required or allowed to be registered within a given time, and have not been proved or registered on or before the first day of October, 1869, under the same rules, regulations and restrictions as heretofore appointed by law; and, when so proved and registered, shall be as good and valid, as if they had been duly proved and registered: *Provided*, That nothing herein contained shall be construed to extend to mortgages and conveyances in trust and to marriage settlements.

SEC. 2. That after the first day of October, in the year 1869, no deed or conveyance deed of trust, or mortgage for real or personal estate shall be valid at law to pass any property as against creditors or purchasers for a valuable consideration from the donor, bargainor or mortgagor, but from the registration of such deed of conveyance, deed of trust or mortgage, in the county where the land lieth; or in case of personal estate where the donor, bargainor or mortgagor resides; or in case the donor, bargainor or mortgagor shall reside out of the State, then in the county where the said personal estate or some part of the same is situated, or in case of choses in action where the donee, bargainee or mortgagee resides.

SEC. 3. That within thirty days after the ratification of this act it shall be the duty of the Secretary of State to send by mail ten printed copies of the same to the Chairman of the County Commissioners of each county in the State; and the said Chairman shall, within ten days after he receives the same, cause them to be posted at the Court House door and nine other public places in his county.

SEC. 4. This act shall be in force from and after its ratification.

Ratified the 12th day of April, A. D. 1869.

Speaker House of Representatives.

President of the Senate.

A plan for cutting a canal through the valley of the Garonne, France, to unite the Mediteranean and the Bay of Biscay, is receiving much attention and is favorably regarded. The Boston Journal of Chemistry states that "no variety of wine is more dangerous than what is called claret. It is usually a vile mixture. Thousands of gallons are made by allowing water to soak through shavings, and adding thereto a certain proportion of logwood and tartaric acid and a little alcohol. Good judges can hardly discriminate between this factitious mixture and the genuine article."

An office of artillery made the following experiment at Quebec. Having filled a bombshell about fourteen inches in diameter with water, he closed it by driving an iron peg firmly in, and left it exposed to frost. The stopper was soon driven out to a distance of one hundred yards, and a cylinder of ice eight or nine inches long issued at the opening. This shows the expansive force of ice.

The well known thoroughbred race horse De Courcy, which won the Jersy St. Leger in 1867, and which was recently sold by Leonard W. Jerome to H. S. A NOBLE ACT—THRILLING SCENE.

On Monday last a young boy, a son of Mrs. Forest, living on Riddle's banks, near this city, had occasion to take his aunt across the dam of Jessup & Moore's papermills to the east side of the Brandywine creek. On returning, owing to the strong wind and high freshet, the boat became unmanageable, and was carried over the dam breast. Providentially, the boat, as it was rushing down the rapid water below the dam, struck upon the only rock in the creek whose top was above the water, and here young Forest scrambled, and there he was saved from immediate drowning. The people soon gathered for the rescue, but the question arose as to how the boy was to be saved from his perilous condition. At that moment a boy with a crutch came forward and said: "I can fetch him off!" One of the bystanders objected, until his father, Patrick Mulrien, who was present, said, "Let him go; you can't drown that boy."—A rope was procured, and young Mulrien, with rope and crutch, went to the rescue.—After feeling the water a little, he threw the crutch ashore, and manfully plunged into the rapid, rushing flood of waters, headed for the rock in the middle of the creek, where sat the half-drowned, chilled, and frightened boy. Mulrien swam round and round till he got through the eddying water on the lee side of the rock, where he scrambled up, tied his rope around young Forest, and with his feet had to push him off the rock into the seething, boiling current, as the boy stubbornly refused to leave the only place of safety, being benumbed with cold and afraid to face the dangers of the rapid flood again. The men soon pulled him ashore, where kind hands ministered to his wants. The trouble then was how Mulrien was to get back again, as he still sat upon the rock, and looked quietly at the people, then at the rushing flood.—He prepared himself for the plunge, and after circling round the partly covered, dangerous rocks, directed his course down the creek, made headway with the current, and very soon gained the shore, some distance below the scene of the disaster.—*Wilmington (Del.) NEW ADVERTISEMENTS.—For sale—Shares of Raleigh & G. Railroad Stock: Apply at State Nat. Bank.

Andrews has an admirable Stock of Clothing. See his card.

First class Mill for sale; J. E. Allen and W. B. Scott.

Important Sale; R. C. Badger, Adm'r.

SALE OF PROPERTY.—The old Cape Fear Bank building on Fayetteville Street and near our office, was sold on Monday for $12,500. Mr. William Grimes is the purchaser. It is reported that he intends erecting four stores on the lot. We presume he will convert the old building into stores and build others. Mr. Grimes bought some time ago the Exchange Hotel on Hillsboro Street.

We learn also, that Charles B. Root, Esq., has sold his residence on Fayetteville Street to Gen. Littlefield for $6,000. The new office for the *Standard* is to be erected near Mr. Root's residence.

MISSION SCHOOL.—This school, under the patronage of the Baptist Church of this city, opened last Monday with flattering prospects. It already numbers between fifty and sixty pupils. It is under the immediate supervision of B. W. Justice, Esq., a gentleman admirably qualified for the position. This school is intended to meet the wants of the poor children of the city who would be without educational advantages unless provided for in this way. This school meets in the old Bayonet Factory, in the Northwestern part of the city. Several teachers are interested in the success of this new and highly praise worthy enterprise.

BLAIR, of the Yarborough, is feeding his guests too high. The other day, strawberries at 50 cents a quart, and to-day the most refreshing ice cream and cake. Many thanks for the editor's share. May Blair's shadow never grow less.

ADDITIONAL.

In our account of the ceremonies on the 10th of May, we neglected inadvertently to mention two circumstances connected with the day. All of our merchants closed their places of business. This was highly proper and respectful. We have heard that one or two small dealers omitted doing so. We also forgot to mention that a band of music, composed of colored persons, was present, and played several appropriate pieces, contributing to the solemnity and interest of the occasion.

NEW ARRIVALS.—A fresh lot of carpet baggers has just come to hand. Among them we notice Abbott the duelist.

COLEMAN.—Rumor says, to day, that the Attorney General will accept his $1,000 consulship to a little German town, by name Stetain, and will leave to morrow for Washington.

A RECENT effort has been made to displace Capt. I. J. Young, of Henderson, the newly appointed Collector for this District. Wiley D. Jones was to be his successor. The Captain has proved too sharp for his enemies and will continue his office in spite of them. Such at least is the report to day.

QUIET AT KINSTON.—We are glad to chronicle the fact that quietude and peace reign at Kinston. The Newbern *Journal of Commerce* says;

"Sheriff Dennison informs us that the object of the visit to Lenoir, was for the purpose of arresting Messrs. Jesse C. Kennedy, — — Tillou and Stephen Hines, on a peace warrant sworn out by "Detective" Wilkie, and A. Munroe, Joseph P. Parrott, Wm. Turnage and Dr. Bartteson, on a bench warrant issued by Judge Thomas. The warrants for the arrest of these latter parties were procured on the oath of Mr. Frank Cox, the Sheriff of Lenoir County, who charges them with the liberation of Devane and Hines from the Kinston jail.—The Sheriff, also, had a bench warrant for the arrest of Devane and Hines.

The posse succeeded in arresting three of these parties—Mr. J. C. Kennedy, Dr. Bartleson and Joseph P. Parrott. Mr. Kennedy was admitted to bail. Of the other two, Bartleson was brought to this city, and lodged in Craven street jail, while Parrott managed to escape from the custody of two of the Deputy Sheriffs and eluded capture by taking to the woods."

One of the posse, John Cambridge, became intoxicated, fell from the railroad bridge into Neuse river and was drowned. He leaves a destitute family. The people of Kinston are law abiding, and it is a slander upon them and the people of Lenoir to charge them with a rebellious spirit. Thus ends the second rebellion in the "Province of North Carolina."

PERSONAL.

The Countess of Mornington, who has just died in London, was directly descended from Edward the First. Nevertheless, she had been several times forced to apply to the police courts for temporary relief in money, by the outrageous neglect of her husband, who was that disreputable Wellesley of whom Horace Smith wrote, "Long may Long Tylney Wellesley Long Pole Live."

Old Dumas, whose modesty is as conspicuous as his spirituality, writes to a paper in Havre that he refused to live in the palace that Garibaldi gave him on account of his fine sense of honor, and that he consents to live on the second floor of a hotel in Paris out of benevolence to the landlord, for, "by my mere presence I give to the hotel a value it did not possess before I made it my home."

Pratt, of Indiana, has lost a hundred pounds of his superfluous weight in Washington by the importunities of an office-seeking constituency.

Camilla Urso is trying to buy Paganini's violin from a Parisian who rejoices in the possession of it.

Gen. John A. Logan, who attends the Grand Army of the Republic re-union in Cincinnati, will deliver an address on Wednesday.

STATE NEWS.

MEMORIAL DAY IN WILMINGTON.—We gather the following from the *Journal*.—There was a procession led by the Cadets under Gen. R. E. Colston. There was a vast concourse of people. Rev. G. Patterson of fered a prayer compiled in part from ancient collects and other prayers. Col. R. H. Cowan then delivered an elaborate and eloquent address. Among other things he said:

"Reviled, as these brave men are daily reviled by those who misrepresent the sovereignty of our State, traduced, slandered, villified, denounced as rebels and traitors, held up to the odium of all mankind, it is nevertheless true, and I glory in the truth, and pledge my name and fame to sustain it, they died in obedience to the laws of North Carolina, and in defense of her honor. And *true* North Carolina recognizes the fact, and glories in it, and has enrolled the names of her martyrs among the brightest which sparkle in the coronet of her glory. And all good men throughout the whole country, at the North as well as the South, even among those who were, during the war, our most determined foemen, while they dissent from the principles upon which our cause was founded, they nevertheless admire and generously applaud, the resolute courage, and the infl xible devotion which maintained those principles."

MAJOR ENGLEHARD.—The *Standard* would have its readers believe that Major Englehard was a skulker from danger and duty, when the facts are just the reverse.

We have never heard Major Englehard speak of his personal services to the South in the late war. But we know that he enlisted as a private in one of the first companies organized in the State, being in active service some time before the famous First (afterwards known as the "Bethel") Regiment was ready for the field. It is true, as the *Standard* so frequently intimates, that he was for a time in the quartermaster's department, but even in the position he then held he never shirked danger. Soon transferred from that department to active duty in the field, he filled, successfully, honorable positions on the staffs of Generals Pender and Wilcox, was often complimented for gallantry, and twice wounded. We think he was also recommended for a Brigadier Generalship, a position he would undoubtedly have reached had the war continued a few months longer.—*Wil. Star.*

The 10th of May in Newbern, was celebrated with becoming honors. The *Journal of Commerce* says:

The procession was probably a quarter of a mile in length and was composed of many of the best citizens in the city. Nearly every lady, native to Newbern, was present. It was preceded by a band of youths and boys in uniform, bearing large crosses and arches composed of evergreens and flowers beautifully commingled, while behind them followed a large number of little misses, each bearing in her hand a symbolic offering. Then came the long line of ladies, and after them followed those gentlemen whom the cares of business permitted to take part in the ceremony.

When the procession arrived at the cemetery it formed a circle around the Confederate Mausoleum, in the centre of which was placed a choir, the members of which comprised some of the finest musical talent of the city. The magnificent dirge to Napoleon, paraphrased appropriately for the occasion, was then sung with thrilling effect, after which the the arches and crosses were arranged in proper positions. The choir then rendered the impressive but beautiful anthem "Thy will be done," at the conclusion of which the general decoration occurred. Flowers were scattered over the vault and the surrounding graves in lavish profusion, and with beautiful effect.

The 10th was duly celebrated in Goldsboro. Prayer by Rev. G. W. Stickney.—Mr. W. Robinson delivered the address.

WILMINGTON AND SEASIDE RAILWAY COMPANY.—We have referred to the chartering of this Company by the Legislature of the State. We are glad to be able to state that the Company is now fully organized and in a few weeks the work will be begun. We will not enter into an argument as to the advantages to our city of having a street railway, being satisfied with announcing the fact that one will soon be in operation.

One hundred thousand dollars of stock has been subscribed and five thousand paid in. This fully complies with the requirements of the charter.

At a meeting of the Stockholders on yesterday, the following gentlemen were elected Directors.

Richard Bradley,
George Z French,
Edwin K. Burrus,
Robert H. Cowan,
Samuel J. Person.

Subsequently, at a meeting of the Directors, Mr. Richard Bradley was elected President.—*Wil. Journal.*

Ex-Secretary of the Interior Jacob Thompson, of Mississippi, returned to his home at Oxford, in that State, last week, after an exile of six years. He was received by a large concourse of people, and welcomed in their behalf by Col. L. Q. C. Lamar. He made a lengthy speech in reply, advising the Southern people to accept the situation cheerfully and devote themselves to industry and economy.

[Special Dispatch to the Baltimore Sun.]

THE PERUVIAN GOVERNMENT AND THE STEAMER ARAGO—THE CUBAN REVOLUTION.

WASHINGTON, May 9.—Senor Garcia, the Peruvian Minister, asserts positively that the steamer Arago was the property of the Peruvian Government, and that when she left New York she had not on board either men, munitions of war or money for the Cuban insurgents. The Peruvian government has sided with the Spanish government against the Cubans, and will not give any aid or comfort to the latter.

Confidential and reliable advices from Cuba have been received here which are not very acceptable to those who have advocated the recognition of the belligerent rights of the insurgents by this government.—Strange as it may appear, the revolution was informally planned by Generals Dulce and Prim, who shoped to shake the rule of Queen Isabella in Cuba, and then to revolutionize the mother country, but Spain queerpectedly took the initiative, and now the very Generals who desired to make Cuba free, are endeavoring to retain the island as a colony of the new Spanish government.

The Cubans were not willing to be transferred from colonists of a monarchy to the same position under a republic, and they therefore determined to continue the warfare. Their success is hopeless, however, unless they secure moral and material aid from outside. But they will permit their fertile island to be laid waste before they will succumb to overpowering forces.

THE UNITED STATES AND THE CUBAN REVOLUTION.—WASHINGTON, May 9.—The Spanish minister has repeatedly, within the last two months, reported to the Secretary of State that expeditions were fitting out in this country for Cuban service, but did not produce the proofs. The Secretary, however, directed inquiries to be made North and South, when it was ascertained there were no facts upon which to found proceedings. The proper officers have been instructed to exercise due vigilance to prevent the violation of the neutrality laws, which the government has assured the Spanish minister will be enforced.

LAST NIGHT'S DISPATCHES.

FROM WASHINGTON.

WASHINGTON, May 11.—The President has appointed Frank M. Pixley District Attorney for California.

The Post Master General has received notice from the far West that mails go through to California to-day, all rail.

Intimations are strong that Mr Hale will remain at Madrid. Opposition to Sickles appears too strong.

Senator Chandler, it is stated, returns suddenly to secure Judge Edmund's retention in the postmastership of the Senate.

It is now stated that Secretary Boutwell says the purchase of bonds is merely intended to give interest. They will not be cancelled but will be held for contingencies. He is not prepared to act upon the sinking fund question.

Admiral Hoff, commanding the fleet to Cuban waters, has been notified by the Secretary of the Navy to look out for Spanish vessels in the habit of searching American merchantmen in Spanish and neutral waters for deserters and contraband of war material and to prevent hereafter any infraction of international law. He is directed to protect not only American citizens but all American commerce.

Coin balance in the Treasury one hundred and seven millions, including twenty thousand in gold certificates.

A full Cabinet to-day, Commodore Porter representing Secretary Borie.

W. W. Corcoran has donated property worth a million of dollars to Washington City for a free picture gallery. August Belmont has authorized the trustees to choose freely from his collection of paintings, to be known as the Belmont contribution.

Cleft was appointed postmaster of Savannah; Wm. Prettiman of Marietta, Ga.

The Cabinet considered Virginia very fully today. It was finally determined soon to issue an order for an election, submitting the test oath and disfranchising clauses to a separate vote.—Possibly county and township organizations may be included in exceptions before the order finally issues. This was strongly urged lastly, but opposition was stubborn.

Mr. Boutwell issues an elaborate circular prescribing proofs necessary to secure taxes paid by non-resident aliens. It includes claims to banks, companies, corporations, and directly by individual non-residents. The order applies to taxes improperly collected prior to March 15th, 1868.

FROM GEORGIA

AUGUSTA May 11.—Joseph Atkins, a Republican Senator from Warren county, was shot in the abdomen yesterday afternoon near Thompson.—Reports assign the cause to a private difficulty.—It is believed that Atkin's wound will prove mortal.

There is considerable discussion as to the propriety of extending the Georgia Railroad to the Blue Ridge to form a connection with the Cincinnati Southern Railroad.

FROM CALIFORNIA.

SAN FRANCISCO, May 11.—The first invoice of Japan teas for St. Louis was shipped to day. This opening overland trade with Japan.

AFTERNOON DISPATCHES.

FROM WASHINGTON.

WASHINGTON May 12 M.—The Chairman called the House Judiciary Committee on May 8th to consider the Alabama judgment of the Busted Impeachment case.

FROM LONDON.

LONDON, May 12, M.—Initiatory steps have been taken to form an alliance offensive and defensive between England, France and Spain against the United States, in view of the Alabama treaty, and the tone of Sumner's speech in the alleged filibustering tendencies, Grant's administration and the reported connivance at expeditions against Cuba.

We wrote five days ago this: "We predict a foreign war. It will be a war not with Spain only but with England, and perhaps, other powers will take a hand.—ED SENTINEL."

FROM HAVANA.

In a recent battle the rebels fought more determinedly than heretofore. The Spaniards lost one Colonel, one Captain, and six killed and thirty wounded. The rebels burned San Miguel near Newvitary.

ÆTNA

LIFE INSURANCE COMPANY,

JANUARY 1ST., 1869.

Assets $10,462,531,75.

Amount of Income 6,227,071.

SURPLUS OVER LIABILITIES 2,675,999,48.

THE Ætna is the LEADING LIFE INSURANCE COMPANY in North Carolina.

Largest amount of Losses to Widows and Orphans!

The Largest Revenue to the States. And has by far the largest number when compared with 58 Companies reported officially by the Commissioners of New York and Massachusetts it will be seen that the Ætna ranks as one of the first Companies of the Continent. But two of the fifty-eight Companies permitted to do business in New York and Massachusetts had so large an income for the year 1868; but two had so large a number of Policies in force, but one among all those incorporated under the laws of the State of New York had so small a per centage of Expense to Income during the year 1868.

Its expenses are lower than most Companies', and consequently its ability to make and pay liberal dividends to the insured is greater than that of most other Companies. It is one of the great Companies of the land in Income, in Assets, in Number of Policies, in Amount Insured, in Solidity and Strength, in Soundness, Cheapness, Promptness, and Success. Persons contemplating this mode of investment in the future as in the past would do well to examine the claims of all and take a policy accordingly.

OUR CHILDHOOD.

BY GEORGE D. PRENTICE.

'Tis sad, yet sweet, to listen
To the soft wind's gentle swell,
And think we hear the music
Our childhood knew so well;
To gaze out on the even,
And the boundless fields of air,
And feel again our boyhood's wish
To roam like angels there.

There are many dreams of gladness
That cling around the past—
And from the tomb of feeling
Old thoughts come thronging fast;
The fo ms we loved so dearly
In the happy days now gone,
The beautiful and lovely,
So fair to look upon.

Those bright and gent'e maidens
Who seemed so formed for bliss,
Too glorious and too heavenly
For such a world as this;
Whose dark, soft eyes seemed swimming
In a sea of liquid light,
And whose locks of gold were streaming
O'er brows as sunny bright.

Whose smiles were like the sunshine
In the spring time of the year—
Like the changeful gleams of April,
They follow every tear!
They have passed—like hopes away,
And their loveliness has fled,
Oh, many a heart is mourning
That they are with the dead.

Like the brightest buds of summer,
They have fallen with the stem:
Yet, oh, it is a lovely death
To fade from earth like them!

And yet the thought is saddening
To muse on such as they
And feel that all the beautiful
Are passing fast away;
That the fair ones whom we love
Grow to each loving breast
Like the tendril of the creeping vine,
Then perish where they rest.

And we can but think of them
In the soft and gentle spring,
When the e KNOWN BUT OF US,
And the flowers are blossoming;
And we know that winter's coming
With his cold and stormy sky
And the glorious beauty round us
Is budding but to die!

Wheedon's Excelsior Labor-Saving WASHING COMPOUND.
Patented Sept. 22, 1868.

REASONS FOR PREFERRING THIS SOAP.

The Patentee claims for this Soap the following advantages which are clearly set forth in the Letters Patent, to-wit:

First, it can be manufactured at less than half the cost of any soap ever produced.

Secondly, it may be used successfully in any kind of water—cold or hot, hard or soft

Thirdly, it so modifies the action of boiling water on woollen goods that their fibres do not contract under its influence, and your woollen garment is as large after boiling as before.

Fourth, it does not decompose the colors of goods, and your prints and stripes are as brilliant after washing as before.

Fifth the goods do not require any rubbing or patent washing machine—all that is necessary is a few minutes boiling and a good rinsing.

LIFE INSURANCE.

NATIONAL

LIFE INSURANCE COMPANY,
OF THE
UNITED STATES OF AMERICA,
WASHINGTON, D. C.

Chartered by Special Act of Congress, Approved July 25th, 1868.

CASH CAPITAL,
$1,000,000,
PAID IN FULL.

It is no longer a question with any man, who tenderly loves his wife and children, who considers how helpless would be their condition in case of his *death*, as to the duty of taking out a LIFE POLICY, but as to which Company he shall pay his money.

If he reflects a moment he will conclude to patronize the Company which shows the greatest degree of vitality, which extends its business over the largest area, which is a Home Company in every locality; which furnishes insurance at the least cost; which issues no policies that are forfeitable should he be unable next year, or any subsequent year to pay his renewal; and which is *undoubtedly* able to meet ALL ITS PROMISES.

With these feelings and views, he looks over the newspapers, and, by the time he gets through reading the advertisements of Mutual or Mixed Companies, he finds his mind so fuddled that he is at a loss where to go or what to do. He can not comprehend one-half that is written, and concludes that none but ACTUARIES, who are familiar with the principles upon which Life Insurance is based can comprehend or explain anything about dividends and his liability for notes given in part payment of premiums. In his dilemma, he looks into the plan adopted by the

NATIONAL

LIFE INSURANCE COMPANY,
U. S. A.,

and finds just what he wants:

An ALL-CASH PLAN, reduced to the LOWEST MINIMUM Rate, like any commodity in Market, so much Insurance for so much Money. No notes to give; no interest to pay; no anxiety about Assessments; no apprehension of his Policy being forfeited next year if he does not pay his annual Renewal; and the RATES so much LOWER than other Companies, that he realizes a larger Dividend, IN ADVANCE, than other Companies can pay him in the future.

He finds that, instead of this UNCERTAIN PROMISE, and present high rate, that the

NATIONAL

presents a certain and definite sum for a much lower rate, and puts up its paid up Capital of

$1,000,000

as a guarantee fund, that its contracts will be fulfilled, and, like thousands of others, cheerfully calls on their Agent to make his application for a Policy. Hence the unprecedented and most wonderful success of the NATIONAL as contrasted with the older and Mutual Companies.

The Company issued its first policy on the 1st of August, 1868, and up to March 1st, 1869, it had issued 3,582 policies.
Amount insured, $10,005,550.00
Total Premiums, 350,117.62

The whole number issued by the Connecticut Mutual in the first year of its existence was 892
By the Mutual Benefit of New Jersey, 693
" New England Mutual, 343
" Phœnix Mutual, 335
" Massachusetts Mutual, 312
" Equitable of New York, 277

The Mutual Life, of New York, in the first year of its existence, only issued 479 policies.
In its 10th year, $1,260 "
And in its 20th year, 2,843 "
this latter being 690 *less* than was issued by the NATIONAL in its first seven months.

The RALEIGH SENTINEL having passed under the Editorial management of the undersigned, it will, from the present date, be conducted by him.

CAUTION! WE desire to warn the dealers in, and consumers of Snuff generally, that since the war, certain Tobacco Manufacturers, being unable to find a market for their snuffs, felt themselves obliged to counterfeit the general appearance of our packages and imitate our Trade Marks so that a close inspection is necessary to detect the spurious article from the genuine, and others going so far as to assert that "Lorillard's Snuff is no longer made."

In making this publication we desire to warn the public against the impositions practiced upon them, as they are the losers thereby. It will be found, upon comparison, that Lorillard's Snuff is "far ahead" of all others, being made of the best stock, after an original and secret process known only to ourselves, besides possessing great age, strength and pungency, and is warranted not to contain any dangerous or deleterious substances, which cannot be said of many worthless articles put on sale by others. The best is the cheapest in the end. A circular will always be mailed on application. In ordering please specify if Salt Snuff (High Toast,) or Fresh Snuff (Extra Scotch) is desired.

NEW METHOD OF WASHING CLOTHES
WITHOUT LABOR.
THE AUTOMATIC
CLOTHES WASHER AND BOILER.

THIS BOILER IS MOST EFFECTUAL, reliable and universally recommended. It can be used on any Stove or Range, in any boiler, and the LOW PRICE of the article places it within the reach of every family.

This Boiler operates upon purely philosophical principles, is self-acting, and dispenses with labor and the wear of the clothes.

The hot suds and steam, by the action of heat, are driven up through tubes, poured upon the clothes, and forced through the fabric with astonishing rapidity, cleansing all articles, from the finest laces to the bed-blankets. For Flannels it is invaluable, as it does not full them as in the old process of rubbing and pressing.

The time required for cleansing a boiler full of clothes is twenty to thirty minutes, and nearly three hundred gallons of boiling suds are forced through the fabric, thoroughly loosening and eradicating the dirt WITHOUT LABOR or friction.—A thorough rinsing finishes the process.

Washing day will no Longer be a terror and dread to housewives. The cost of the Boiler will soon be returned in the SAVING OF TIME AND LABOR, and the great saving in the wear of clothes.

The great value of this invention appears so clear, and appeals so directly to common sense, that we have deemed it unnecessary to accompany its introduction with numerous letters of approval, &c.

No invention has met with such ready sale and given such satisfaction. Call at LOUGEE & BROTHERS, and see its wonderful operations.—We have the exclusive right to sell and manufacture in the State
